# Grason Ratowsky

New York City & Mallorca, Spain · grasonratowsky.com · hello@grasonratowsky.com

Grason Ratowsky is an American artist and designer living and working between New York City and Mallorca, Spain. While rooted in expressionist logic, his work sustains slippage between abstraction, figuration, and surreal recognition. Working at large scale, his paintings maintain tension between bodily gesture and emergent imagery, foregrounding process as both structure and content.
